Revision: 27.02.2017

Trade name: Epifanes Spraythinner for Paint & Varnish

(Contd. of page 1) GHS07 STOT SE 3 H336 May cause drowsiness or dizziness. · 2.2 Label elements · Labelling according to Regulation (EC) No 1272/2008 The substance is classified and labelled according to the CLP regulation. · Hazard pictograms GHS02 GHS07 GHS08 GHS09 · Signal word Danger · Hazard-determining components of labelling: Naphtha (petroleum), hydrotreated light Hazard statements H225 Highly flammable liquid and vapour. H336 May cause drowsiness or dizziness. H304 May be fatal if swallowed and enters airways. H411 Toxic to aquatic life with long lasting effects. Precautionary statements Keep out of reach of children. P102 P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P260 Do not breathe dust/fume/gas/mist/vapours/spray. P271 Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face P280 protection. P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor. P403+P233 Store in a well-ventilated place. Keep container tightly closed. Dispose of contents/container in accordance with local/regional/ P501 national/international regulations. · 2.3 Other hazards · Results of PBT and vPvB assessment · PBT: Not applicable. vPvB: Not applicable.

SECTION 3: Composition/information on ingredients

3.1 Chemical characterisation: Substances
CAS No. Description 64742-49-0 Naphtha (petroleum), hydrotreated light
Identification number(s)
EC number: 265-151-9
Index number: 649-328-00-1
Additional information: Note P: The substance does not have to be classified as a carcinogen or mutagen as can be shown that the substance contains less than 0.1% (w / w) benzene (EINECS No 200-753-7.). This note applies only to certain complex oil-derived substances in Part 3.
Description: Solvent mixture (Contd. on page 3)

Printing date 27.02.2017

Version number 10

Revision: 27.02.2017

Trade name: Epifanes Spraythinner for Paint & Varnish

(Contd. of page 2)

· Dangerous components: Void

SECTION 4: First aid measures

- · 4.1 Description of first aid measures
- · General information: Immediately remove any clothing soiled by the product.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: Immediately rinse with water.
- \cdot After eye contact: Rinse opened eye for several minutes under running water.
- After swallowing: Seek medical treatment.
- \cdot 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.
- 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media

- Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · For safety reasons unsuitable extinguishing agents: Water with full jet
- \cdot 5.2 Special hazards arising from the substance or mixture
- During heating or in case of fire poisonous gases are produced.
- 5.3 Advice for firefighters
- Protective equipment: Wear fully protective suit. Mouth respiratory protective device.

SECTION 6: Accidental release measures

 6.1 Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation Mount respiratory protective device. Wear protective equipment. Keep unprotected persons away. 6.2 Environmental precautions: Prevent seepage into sewage system, workpits and cellars. Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers/ surface or ground water. 6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13. Ensure adequate ventilation. 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment.
GB

Printing date 27.02.2017

Version number 10

Revision: 27.02.2017

(Contd. of page 3)

Trade name: Epifanes Spraythinner for Paint & Varnish

SECTION 7: Handling and storage

- 7.1 Precautions for safe handling Keep away from heat and direct sunlight.
 Ensure good ventilation/exhaustion at the workplace.
 Prevent formation of aerosols.
- Information about fire and explosion protection: Keep ignition sources away - Do not smoke.
 Protect against electrostatic charges.
 Keep respiratory protective device available.
- 7.2 Conditions for safe storage, including any incompatibilities
- Storage:
- Requirements to be met by storerooms and receptacles:
 Store only in the original receptacle.
 Store in a cool location.
- \cdot Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep container tightly sealed.
- Store in cool, dry conditions in well sealed receptacles.
- · 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

- Additional information about design of technical facilities: No further data; see item 7.
- · 8.1 Control parameters
- Ingredients with limit values that require monitoring at the workplace: Not required.
- Not required.
- \cdot Additional information: The lists valid during the making were used as basis.
- · 8.2 Exposure controls
- · Personal protective equipment:
- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work.
- Respiratory protection: Suitable respiratory protective device recommended. In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device. Filter AX
- · Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

(Contd. on page 5)

Trade name: Epifanes Spraythinner for Paint & Varnish

(Contd. of page 4) · Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. \cdot Penetration time of glove material The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. \cdot For the permanent contact gloves made of the following materials are suitable: nitrile rubber; recommended glove thickness> 0.45mm. permeability / permeation time:> 480 min. according to EN 374. · As protection from splashes gloves made of the following materials are suitable: Cloropene; handglove thickness >0.7mm, penetration time >60min. according EN374. Nitrilrubber; handglove thickness >0.3mm, penetration time >60min. according EN374.

· Eye protection:

Tightly sealed goggles

FANES 💥 Yacht Coatings

Safety data sheet according to 1907/2006/EC, Article 31

Printing date 27.02.2017

Version number 10

Revision: 27.02.2017

Trade name: Epifanes Spraythinner for Paint & Varnish

(Contd. of page 6)

- Reproductive toxicity Based on available data, the classification criteria are not met.
- · STOT-single exposure
- May cause drowsiness or dizziness.
- · STOT-repeated exposure
- Based on available data, the classification criteria are not met.
- Aspiration hazard
 - May be fatal if swallowed and enters airways.
 - SECTION 12: Ecological information
- · 12.1 Toxicity
- · Aquatic toxicity: No further relevant information available.
- · 12.2 Persistence and degradability No further relevant information available.
- · 12.3 Bioaccumulative potential No further relevant information available.
- · 12.4 Mobility in soil No further relevant information available.
- · Ecotoxical effects:
- · Remark: Toxic for fish
- · Additional ecological information:
- · General notes:
- Water hazard class 3 (German Regulation) (Self-assessment): extremely hazardous for water
- Do not allow product to reach ground water, water course or sewage system, even in small quantities.
- Danger to drinking water if even extremely small quantities leak into the ground.

Also poisonous for fish and plankton in water bodies.

- Toxic for aquatic organisms
- · 12.5 Results of PBT and vPvB assessment
- \cdot PBT: Not applicable.
- · vPvB: Not applicable.
- · 12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

- \cdot 13.1 Waste treatment methods
 - Recommendation Must not be disposed together with household garbage. Do not allow product to reach sewage system.
- · European waste catalogue

-	WASTES FROM THE MANUFACTURE, FORMULATION, SUPPLY AND USE (MFSU) OF COATINGS (PAINTS, VARNISHES AND VITREOUS ENAMELS), ADHESIVES, SEALANTS AND PRINTING INKS
08 01 00	wastes from MFSU and removal of paint and varnish
08 01 11* waste paint and varnish containing organic solvents or other hazardous substances	

Uncleaned packaging:

· Recommendation: Disposal must be made according to official regulations.

Annex: Exposure scenario
· Short title of the exposure scenario
· Product category
PC35 Washing and cleaning products (including solvent based products)
PC0 Other
· Process category
PROC10 Roller application or brushing
PROC11 Non industrial spraying
· Environmental release category ERC2 Formulation into mixture
· Description of the activities / processes covered in the Exposure Scenario
See section 1 of the annex to the Safety Data Sheet.
· Conditions of use
 Duration and frequency 5 workdays/week.
• Physical parameters
• Physical state Fluid
\cdot Concentration of the substance in the mixture Raw material.
· Other operational conditions
• Other operational conditions affecting environmental exposure
Use only on hard ground.
Other operational conditions affecting worker exposure
Take precautionary measures against static discharge.
Keep away from sources of ignition - No smoking.
· Other operational conditions affecting consumer exposure
Keep out of the reach of children. • Other operational conditions affecting consumer exposure during the use of the
product
Not applicable.
· Risk management measures
· Worker protection
• Organisational protective measures No special measures required.
· Technical protective measures
Provide explosion-proof electrical equipment.
Use product only in enclosed systems.
Ensure that suitable extractors are available on processing machines
· Personal protective measures
Do not inhale gases / fumes / aerosols.
Protective gloves
The glove material has to be impermeable and resistant to the product/ the
substance/ the preparation.
Due to missing tests no recommendation to the glove material can be given for
the product/ the preparation/ the chemical mixture.
Selection of the glove material on consideration of the penetration times,
rates of diffusion and the degradation
• Measures for consumer protection
Ensure adequate labelling.
Keep locked up and out of the reach of children.
· Environmental protection measures
• Water Do not allow to reach sewage system. • Soil Prevent contamination of soil.
 Soli Prevent contamination of soli. Disposal measures Ensure that waste is collected and contained.
· Disposal measures ensure that waste is corrected and contained. · Disposal procedures
Must not be disposed together with household garbage. Do not allow product to
reach sewage system.
· Waste type Partially emptied and uncleaned packaging
· Exposure estimation
· Consumer Not relevant for this Exposure Scenario.
· Guidance for downstream users No further relevant information available.
